CP Rack

FEATURES

- A compact and lightweight rack designed to hold up to 1,000 lbs (453kg) of lights with the ability to raise and lower its overall height and fold down when not in use for easy storage. The uprights can be removed from the rack and used for H Frames as an added convenience. The rack can be stacked two high and still fit inside a standard tractor trailer and is standard truck pack width (US) or 3 wide width ways (EU).
- Folds flat in seconds for convenient storage.
- Compact size allows for the rack to fit through ADA compliant doors as well as smaller elevators.
- Variable height allows for multiple types of fixtures to be transported without the need for additional accessories.
- 5” high capacity casters for easy movement of the racks when fully loaded
- Removable H frames that can be hung from truss to hang fixtures.
- Able to carry up to (4) of our largest fixtures.
- Ships with a cover
