

## Rogue Outcast 2 Beam

Rogue Outcast 2 Beam projects intensely bright and tight beams from a lightweight IP65 moving head designed to harness the power of its 300W 8000K lamp to slice through atmospheric and outshine any other effect. Aerial looks are sharp and multifaceted with split colors, stunning gobos, layerable rotating prisms and precision focus. Apply frost for even light distribution. Reduce maintenance with a durable alloy body built to withstand the elements, inside or out.
