

STRIKE 1

STRIKE 1 is a big, bold, outdoor-ready blinder powered by an intense 230 W warm white LED source. It is also an awesome strobe and a wide area floodlight. Its IP rated fan keeps it cool enough for use as a wash while IP rated direct power and DMX connections eliminate undesirable whips. An emulated “amber shift” warms the Color Temperature of the light as it dims to mimic incandescent lights perfectly.
